### Volume XVI, 2002-2003

*Indexed by Juanita Patton*

#### Introduction to the Index

We believe that every genealogical work should provide an every-name index in the fourth issue of each volume of the *Journal*. This index includes names, places and subjects. Pagination of Volume XVI began with page 1 in the Summer 2002 issue and continued through this issue. The following notes prepared during the indexing process will be helpful to the reader.

- Individuals identified in the text as “slaves” are indexed under that heading.
- Names beginning with M’, Mc, and Mac appear as if all started with Mac.
- If the maiden name of a female is known, she is listed under both her married and maiden names.
- Military units are indexed under that heading.
- Rivers, creeks, and springs are indexed under Waterways.
- Cemeteries are indexed under Cemetery.
- (n) indicates an entry in the notes on the page cited.
- (auth) indicates that the person is the author of an article or a book reviewed.
- (cont’r) indicates that the person contributed the article to the *Journal*.
