

Every-Name Index

MTGS Journal
Volume XXXIII, 2019-2020
Indexed by Jim Long

Introduction to the Index

We believe that every genealogical work requires a complete index, and to that end provide an every-name index in the fourth and final issue of each volume of the Journal. This index includes names, places and miscellaneous. Pagination of Volume XXXIII began with page 1 in the Summer 2019 issue and continued through this issue. The following notes prepared during the indexing process will be helpful to the reader.

- Individuals identified in the text as *slaves/former slaves* are indexed with (slaves) entered before their name.
- If the maiden name of a female is known, she is listed under both her married and maiden names.
